## 10 PROJECT GRIEVANCES REDRESSAL MECHANISM (GRM) OF SINDH-MSDP

The Sindh-MSDP is enthusiastic and motivated to address/ resolve the grievances of citizens of Jacobabad, Sindh. It is pivotal for any democratic society that the people (end users) and their ideas be put in first place. This makes the Grievances Redressal a very important task. The Sindh-MSDP effectively ensures the systematic resolution of citizen grievances through a transparent and efficient manner on the fast track. Presently, a dual system is prevailing for Project's Grievances Redressal Mechanism; Pakistan Citizen's Portal (PCP); and MSDP's internal mechanism established at designated Project Support Unit Jacobabad and Project Management Unit. This task demands dedicated and concentrated efforts in the right direction to bring sustainable change. It is not out of place to mention that Sindh-MSDP has embarked effectively for providing higher level of service delivery to urban and peri-urban population of project area for enhanced quality of life.

*Table 8: Complaints Statistics as of 31<sup>st</sup> December 2022*

The above statistical illustration is an overall glimpse of grievances received and resolved through Pakistan Citizen Portal (PCP) and Grievances Redressal Mechanism (GRM) during the month of December 2022 regarding service delivery. It is aimed that the MSDP team will continue to work dedicatedly day in and day out to ensure the rapid Redressal of Citizens Grievances.

In order to address the issues highlighted by general public regarding connectivity, de-silting, placement of slabs on drains and lifting of dismantled/waste material from site etc. the five (05) Sub Engineers of Program Support Unit have been mobilized. They visit the field on regular basis and report the on-ground situation on a checklist/ proforma. The Assistant Director (Design)/Incharge PSU & Assistant Director (Execution) Program Support Unit compiles the observations and shares the same with Resident Engineer, RCC Consultant for their timely redressal.
